Client	Description of the Project
Board of investment	Improvement and extension of exit stairway of BOI office building, Colombo-01
Mobitel (Pvt) Ltd.	Erection of Towers
Royal Norwegian Embassy	Fabrication and Installation of Security Fence over existing Boundary Wall
Ceylon Petroleum Corporation	Erection of inspection gantries
Sri Lankan Airlines	Construction of building for training facilities
South Asian Gateway Terminal	Queen Elizabeth Quay Re-development - Stage 2
South Asian Gateway Terminal	Raising of man-proof fence - Colombo Port
Bank of Ceylon	Repairing of steel fire escape
Airport Aviation	Replacement of roofing sheets of fire station building
Kirillawala Maha Vidyalyaya	Construction of computer laboratory
NSB (National Savings Bank)	Renovation and interior work
Central Engineering Consultancy Bureau	Construction of overhead bridge (with steel roof) over Dutch Canal, joining Havelock Road and Central Bus Stand, Galle
Biyagama Industrial Park	Construction of perimeter fence
Sri Lanka Telecom Ltd.	Refurbishment of Kurunegala office building
DHL - Keels Ltd	Fabrication of office furniture
FARAB/Hadish Engineering Company	Designing, fabricating, supplying & installing fire fighting structure at Multi-purpose Development Project, Uma-Oya
Maeda Nishimatsu Joint Venture	Fabrication work at Upper Kothmale hydropower project - Lot 02
China Geo-Engineering Corporation (SL)	Fabrication work at Project Sites - Mattakkuliya, Rathmalana & Gothatuwa
Ministry of Fisheries & Aquatic Resources Development - Ceynor Foundation	Upgrading of Boat Yard at Mattakkuliya, to provide boat repairing facility for Dickowita Fishery Harbour Project
Provincial Road Development Authority (W.P)	Construction of proposed " Sathipola " building & related structures (BLOCK 'C') at Kamachchode, (Negombo) in Gampaha District

33kV Power Transmission Lines

Ceylon Electricity Board	Construction of Tower Foundations and Erection of Steel Towers for 33kv double circuit LYNX Tower Lines: <ul style="list-style-type: none"> from Rambukpitiya to Imbulpitiya (Nawalapitiya) 19 nos. Towers from Thulhiriya to Narammala 66 nos. Towers with 20 Km stringing From Kohombadeniya to Hunuwala 28 nos. Towers with 7.5 Km stringing
--------------------------	--

Water / Road Construction, Rehabilitation & Development of Electrical Line construction Project in Southern Province for Ceylon Electricity Board.

Power System Upgrading Projects of the following Repeater Stations for Sri Lanka Telecom;

- Single Tree - N'Elia	- Pettigala	- Jayawardenapura
- Havelock Town	- Madolsima	- Aranayaka
- Kurunegala	- Inginiyagala	- Hingurana
- Kelaniya	- Gampaha	- Maha-Oya
- Kalutara	- Kithulgala	- Kotiyakumbura

U.S.S. Engineering (Pvt) Ltd. was established in 1980 at Ganemulla, in the Western Province of Sri Lanka, with the objective of catering for the expanding opportunities in the areas of Power Transmission & Distribution and Telecommunication Engineering work. This occurred consequent to the rapid development of infrastructure by the Government for Industries as well as for the needs of the nation. The company was primarily engaged in the manufacture of Steel Hardware Items, Bolts & Nuts, Aerial Cable Fittings, Stay Assemblies and Concrete Poles.

Over the years of existence, the company was able to win a large number of highly competitive Public Tenders, which were open to both local & foreign bidders. Now the Company possesses assets over 1.5 Billion Sri Lankan Rupees. This consists of Hardware factory, Bolts & Nuts Manufacturing Plants, Concrete Pole Casting Yards, Heavy Construction Machines, Transport Fleet, Stringing Equipment, etc.,

The main clients and customers of the company are Sri Lankan Government Authorities, and Agencies such as Ceylon Electricity Board, Sri Lanka Telecom Ltd., Lanka Electricity Company Ltd, National Water Supply & Drainage Board, National Savings Bank, Sri Lankan Airlines, Bank of Ceylon, Sri Lanka Railways and National Hospital of Sri Lanka. The company functions as a local economic unit of the Island, by saving approximately Rs. 500 Million worth of foreign exchange annually for our country.

The company recently accessed the international market by exporting steel hardware items to Scandinavian, African and Middle Eastern markets, namely Norway, Rwanda, Nigeria and Yemen.

The company offers services such as steel fabrication, road construction, building construction, power & telecom outside plant & tower line construction, electrical installation, and also acts as the local agent for import of telecom, electrical and water supply accessories and industrial chemicals.

The company has a total direct workforce of over 650 employees, who are highly qualified and competent in their respective fields of work, especially engineers in multi-disciplinary fields.

The company meets ISO 9001:2008 standard for Quality Management System and enjoys ICTAD grading C-1 for Construction, and ICTAD grading EM-1 for Steel Fabrication, Electrical and Telecommunication Engineering Work.

In the recent past, the company ventured into the fields of solar power and agro technology areas introducing solar air conditioning systems and electric fencing systems to Sri Lankan Markets.

Vision

To be the major contributor in Manufacturing, Fabricating and Galvanizing steel items for the Sri Lankan and International markets, by providing dedicated service, assuring highest quality standards of products and utilizing latest advanced technologies.

Mission

To provide customer satisfaction at the highest level, by fulfilling their expectations through maintenance of efficiency at the highest level, and ensuring no customer complaints, by providing quality assured products and services in the multi disciplinary fields of engineering.

Quality Policy

We are committed to achieving success through excellence in the Engineering Industry, while conforming to the highest standards of quality and safety, and stepping beyond customer expectations.

We are committed to creating a work environment that is conducive to development of our employees, and to comply with ISO 9001:2008 Standards in Quality Management System, with continual improvement.

Core Values

- High quality in all products and services
- Team-work and team-spirit in achieving organizational goals
- Meticulous planning of all work
- Professionalism in all operations and deliverables
- Honesty in all dealings
- Swift operations

Telecommunication OSP & New Connection Projects

Sri Lanka Telecom Ltd

MANUFACTURE OF STEEL HARDWARE ITEMS

GANEMULLA AND EKALA FACTORIES

With the help of our expert professionals, we manufacture an assortment of exquisite steel hardware items, using advanced production techniques, which are widely acclaimed for their superior quality and hi-tech designs. Owing to their superior quality and extensive usage, these items are in high demand within many Government Institutions such as the CEB, SLT, and LECO. We are unique in our capability of manufacturing all types of steel hardware items as per any specifications.

STEEL FABRICATION PRE-ENGINEERED STRUCTURES & FABRICATION

At the U.S.S Engineering steel fabrication unit, we are fully committed to accomplishment of every project undertaken by us, thus guaranteeing customer satisfaction. We are proud of and are honoured by the trust placed in us by our customers. Our hallmark of success in steel fabrication in Sri Lanka, is attributable to our experience, engineering expertise, and versatility.

MANUFACTURING OF CONCRETE ITEMS

RAGAMA, IMBULGODA, PADIYATHALAWA, AND ANURADHAPURA

With historical factors firmly rooted in the first decade of the 20th century, our RC Concrete Poles manufacturing unit is playing a major role in the organization. Our poles have become the first choice of the CEB, LECO, and SLT for the period of past 02 decades, and are widely used by them owing to many advantages in the use of these poles, including superior quality, timely deliveries from our own manufacturing yards in various locations in Sri Lanka, and attractive prices. We are always looking for new technologies to innovate these products, while enhancing our product line. All our concrete poles are customized, and made to order.

FOREIGN SUPPLIES

ELECTRICAL & TELECOM CABLES

High/Low voltage underground cables,
High/Low voltage power cables,
ACSR (Lynx, Racoon)
AAC,
AAAC conductors,
Multi-pair telephone cables,
Co-axial cables,
Fibre optic cables... etc.

FOREIGN SUPPLIES

STEEL ITEMS & OTHERS

Steel Towers – Electrical & Telecommunication,
GI pipes, Clamps,
Brackets,
Plastic Security Seals
Electricity Meter Seals
Telephone Units,
Ladders, Bolt Seals,
Sealing Straps ...etc.

CIVIL ENGINEERING CONSTRUCTION WORK

BUILDINGS

As we are engaged in a fully integrated construction business, we create sophisticated, elegant structures to the highest standard. Our emphasis is on accuracy, quality and customer satisfaction. Whether creating a new structure or even renovating a heritage building, traditional and modern techniques are combined in harmony with precision execution. Today, we are highly respected within our clientele for our high standards and true craftsmanship. We are fully geared to take on the requirements of our clients, with integrity, passion for architecture and high standards, in order to realize their projects potential.

CIVIL ENGINEERING CONSTRUCTION WORK HIGHWAYS

Our organization's Telecommunication Division, having its office in Colombo, was established in the year 2003 in order to venture into the field of telecommunication engineering; a sector that was hitherto dominated solely by foreign companies and by companies with foreign collaboration. Employing experienced professionals having vast experience in the telecommunication sector, we are fully geared now to undertake any type of telecommunication project in any part of the country.

We now rank as a Reputed Registered Unit Rate Contractor of SLT, and successfully accomplished the recently concluded "Deyata Kirula" project at Buttala.

ELECTRICAL ENGINEERING & CONSTRUCTION WORK

With the teaming-up of experienced professionals in the field of electrical engineering, we are also geared to undertake any type of electrical engineering work. With decades of experience in this field, our organization has engineered a variety of notable projects for the Government and the private sector. We undertake any project, upon careful assessment of the client's requirement, in order to deliver the best solution for it.

DESIGN AND CONSULTANCY SERVICES

WATER, WASTEWATER & POWER TRANSMISSION

With this unit being our latest addition to our organization, we are happy to announce that, our team of professionals and vastly experienced consultants, are ever ready to assist any project in the fields of water, wastewater, and electricity, with their consultancy services. Having decades of experience in these fields, our consultants offer services and methodologies designed to address technological needs, ranging from strategic planning to rapid implementation of projects.
